<sup>1</sup> **Complex Projects:** Complex projects involve more resources of the planning and other county departments due to their complexity and overall impacts on the community. As such, complex projects may even require the hiring of outside assistance. For these types of projects that require a great deal of departmental resources to review, the county will require the applicant to sign a memorandum of agreement to compensate the county for actual costs incurred to complete the review and process in a timely manner. The agreement shall include details with regards to deposit and the scheduling of payments. If an applicant refuses to enter into a memorandum of agreement or if the applicant and the county fail to reach an agreement, the application will not be processed.
