

Oregon Wildfire Risk Explorer - Cheat Sheet

- Open the Oregon Wildfire Risk Explorer website - [Oregon Wildfire Risk Explorer \(oregonexplorer.info\)](https://oregonexplorer.info) .
- On the left-hand side, enter a property address or Lat/Long location. For addresses include city, state and zip code for accuracy!
- Hit enter or the Submit button to see the result.
- The map will zoom to the address location.
- A pop - up window will also appear on the map interface. This window provides information on the Wildfire Risk Classification and whether the property is within the Wildland Urban Interface Boundary.
- Click on “Generate Homeowner’s Report” button to produce a PDF report for a property.
- The system will take a minute to generate a report.
- On the left-hand side of the page, a new button will become available – “Download Homeowner’s PDF Report”
- Click on button to view or save PDF.
